ISSUE No 1. JULY 1981.

THE NEWSLETTER OF THE BEARLY MADE IT SKYDIVE SQUAD.

FOUNDED, MAY 31ist, 1981.

FOUNDER & EDITER, FREDBEAR. FOUNDER MEMBER & CURRENT CHAIRMAN, GAMLEY BEAR.

Fraternal Greetings to all Farachuting Bears, Dummies, Inanimate Objects and Related Impedimenta WHOEVER and WHEREVER you are. Did you ever realise that when you launch into that sometimes near fatal descent, not only are you satisfying the idiosynchratic whims of your personal Dropnik, you are also keeping him or her off of street corners and if you have ever pondered the whole purpose of the exercise, now you know

A MESSAGE FROM THE CHAIRMAN.

Dear All, From time immemorial Kites have been going up and Bears etc have been coming down, albeit occasionally the hard way and you could be forgiven for thinking that this was your Dropniks sole purpose in life and indeed it is, but a sinister new development is what I wish to now draw your attention to. I am a Bear of good standing amongst our Fraternity and willingly submit myself to repeated drops and even the odd headfirst into a Cowpat. But the following I draw the line at. Earlier this year whilst on an off duty constitutional along the Palace Pier, Brighton I was kicked through the railings straight into the 'OGGIN. Luckily I do float and after a short sojurn in the Briny I was rescued by the gallant crew of the good Motor Boat '007'. The effect of this dunking on my system I'll leave to your imagination, suffice it to say that my smart pair of Jump Boots disintegrated. This shocking affair took place without the benifit of a life Jacket, therefore it is beholden to all you droppers to insist on a Life Jacket anywhere in the vicinity of water.

GAMLEY.

GOOD GRIEF. What a fur raising tale that was and I must tell you that a formal written complaint has been lodged with Dropnik Locke and the R.S.P.C.P.B. and an adjudication is awaited.
